## **Parking Ordinance**

December Town Council meeting resulted in the passing of a parking ordinance. The ordinance states that any parked, stored, abandoned, or inoperable vehicle shall not be left on any public property and street for up to 72 hours. Also, parking a vehicle with the left side of the vehicle next to the curb is prohibited, unless on a one way street. A vehicle must be parked parallel to the curb but have the two right wheels within twelve inches of the established curb line. The ordinance also touches on vehicles for sale. It states no vehicle should be parked on the any street to display it for selling. Also there will be no parking a vehicle in the street to sell merchandise from it. The consequence for violating the ordinance will be a letter written to inform the owner of the need to correct the problem. If the problem is not corrected a violation letter will be sent and the final step is a citation issued. Vehicles will be removed as an emergency removal when the car is a danger to flow of traffic, or obstacle to emergency vehicles. The vehicle will be removed without the knowledge of the violator and at their expense.

Radio read meters have been installed. Please be patient with us while we transition to the new system. The new lids are plastic with a wire attached underneath, so please be cautious while around them. The new meters cost more, and if any damage occurs to the meter or the meter lid the expense to replace them will be with the property owner.
