Glen Canyon Special Service District of Big Water-Exciting changes are about to happen with the creation of the new district. One major change is new radio read water meters. These meters will allow us to look at water usage at any given time of day and provide the town with more accurate reads. The new meters will require that a hole be drilled in the water meter lid and a transmitter inserted. Please be advised that removing the lids of the water meters could damage the transmitter and that the property owner will be responsible for the cost of replacement.

Annual Drinking Water Quality Report- This report is available on the Big Water Town website and copies are available at Town Hall.

Welcome Judah Schmuker to Town Council.
